

LIST OF AGREEMENTS OF THE PHD PROGRAMME IN DATA SCIENCE AT LOYOLA ANDALUCÍA UNIVERSITY

Scientific research in this field requires the establishment of international research networks that enable continuous contact with researchers from other universities who are also interested in the field of data science.

To this end, the PhD Programme has established collaboration agreements whose purpose is to facilitate contact between the programme's researchers and other research centres of recognised prestige.

Below is a list of the agreements currently in force that have been signed for the development of research activities with various institutions.
